training made simple

THE NECESSITY OF TRAINING

God has uniquely gifted His people for service in the Kingdom, and every pastor has a biblical responsibility to train and develop leaders within the church. Ephesians 4:11–13 states clearly that the role of the pastor is to train the saints for the work of ministry so the body of Christ is strengthened. Quite simply, training people for ministry leads to healthier churches. Pastors know this, but studies reveal that almost three-fourths of churches have no training strategy in place. Training a variety of busy people around specialized ministry roles is challenging. We are here to serve. That's why we created Ministry Grid.

WHAT IS MINISTRY GRID?

Ministry Grid is a customizable, web-based training platform that makes developing leaders simpler and more effective than ever before. Our goal is for more churches and ministries to engage in training their leaders and thus impact more people for Christ. Ministry Grid accomplishes this by offering the most extensive and comprehensive subscription-based video training service available, with topics covering everything from the parking lot ministry to the pulpit. Ministry Grid has unique suites of content for pastors, staff, volunteers, and every-day church goers. Plus, Ministry Grid's Learning Management System easily allows leaders to customize training tracks to fit their people's unique needs and goals, as well as allowing them to monitor training progress, track giftedness, and grant or restrict access to specific content. Ministry Grid does all of this affordably and without adding a time-consuming program to a church's calendar.
